

DAES 2015

International Workshop on Design and Analysis of Embedded Systems

in conjunction with
Federated Conference on Software Development and Object Technologies (SDOT 2015)

19.–20. november 2015, Žilina, Slovakia

Scope:

DAES Workshop is organized in conjunction with Federated Conference on Software Development and Object Technologies (SDOT 2015) and it will take place in Žilina, Slovakia, November 19–20, 2015. This workshop provides an opportunity for academic and industry professionals to discuss recent progress in the area of design, synthesis, implementation, test and analysis of embedded systems including digital, analog and mixed devices. The goals of this workshop are to provide a complete coverage of the areas outlined and to bring together the researchers from academic and industry as well as practitioners to share ideas, challenges, and solutions relating to the aspects of this field.

Topics:

- embedded systems
- control systems
- digital systems and architecture
- hardware–software co–design
- signal processing
- logic synthesis
- properties and applications of Boolean Algebra
- measurements, analysis and monitoring
- dependable systems
- domain modelling
- business process modelling and implementation
- Internet of things
- software and systems modelling

Submission:

- Paper should be authentic, original, containing new scholar ideas and thematically within the conf. topics.
- Paper should be written in English using the conference template on the maximum of 12 pages.
- Furthermore, paid registration to the conference is mandatory for paper acceptance.
- All submissions will be reviewed by at least two members of the DAES 2015 workshop IPC members.

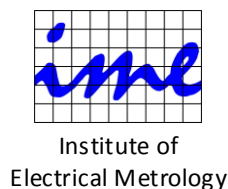

Template, link to EasyChair are available at the conference website

Important dates:

Paper Submission Due:	September 13, 2015
Accept Notification:	October 11, 2015
Camera-ready paper Due:	October 25, 2015
Registration Due:	October 25, 2015
Conference/Workshop Dates:	November 19–20, 2015
